Nearpod Lesson Library

What makes us "content experts"?

- Our curriculum team is made up of former educators

- We frame our resources around the research-based instructional models (i.e 5E, PBL, Guided Inquiry, + more)

- We partner with trusted, leading education organizations (i.e. PhET, PBS Kids, iCivics, Common Sense Education, and more)

What types of teaching resources does Nearpod have?
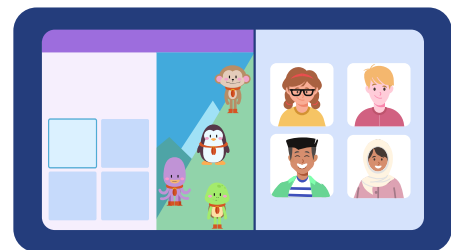

Interactive lessons

Slide-based lessons with embedded interactive activities and media

- Nearpod Core-Subject Lessons 8,500+ ever-growing collection

- Current Events collection we constantly update with relevant news topics

Interactive games and activities

- Draw It to make learning hands-on by drawing, highlighting, typing, or adding images to text, charts, graphic organizers, graphs, tables, and more.

- Time To Climb to make a game of concept and skill review! Watch your students answer questions and compete to make it to the podium!

- Collaborate Board to help you break the ice, encourage classroom discussions, and foster student voice in the classroom.
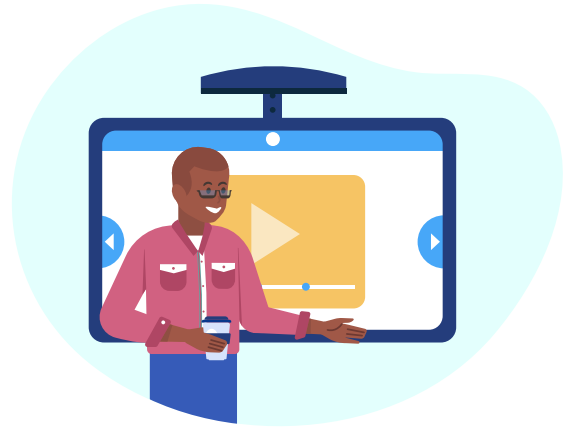

Interactive Videos

Active video experiences with embedded formative assessments

- Watch together in front-of-class mode or send to your students' devices for synchronous or asynchronous instruction.

- Here are some of our favorite Nearpod Originals:

  - [What Is Poetry?](#)
  - [History of the Atom](#)
  - [Perimeter](#)

How can I find content in Nearpod?
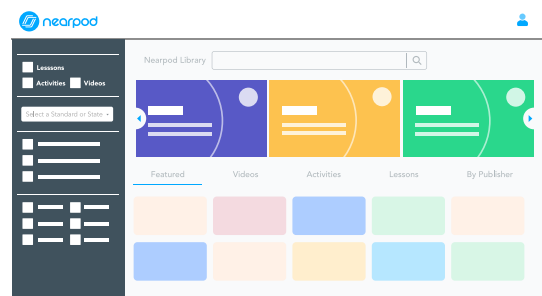

Enhanced Search

- Type in a keyword into the search bar to find content anywhere on Nearpod.

- Search faster with real-time suggestions that appear in the search bar as you type.

- Use the search filters to organize by content type, standards, subject, and grade level.

Curated collections

One-slide-based interactive activity

- Go to the Nearpod Library and check out our "Featured" section that's updated monthly with seasonal topics, relevant holiday resources, and new partnerships.

- If you use a school or district Nearpod license, you can find content recommended by your colleagues.

What can you do with Nearpod content?

Teach it as is or customize

All of the free teaching resources in the Nearpod Library are customizable. You can teach with them as is or add any resources to edit it.
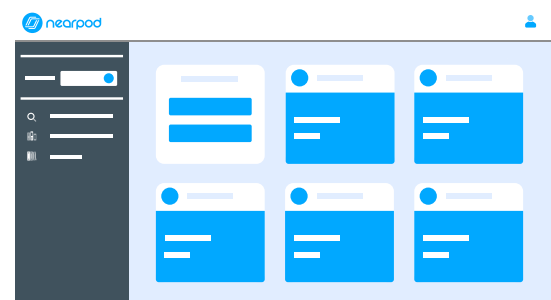

- Have students who will benefit from the option to draw and write? Swap in a Draw It for an Open Ended Question and allow them to do both!

- Want to engage your students with a bit of competition? Replace a Quiz with a Time To Climb activity.

- Want to add even more real-world connections? Add a Virtual Reality Field Trip or video from our database right into your lesson.

Organize your lessons in My Library

When you've found or customized the perfect teaching resource, it's easy to store it in your library.

- Drag and drop your favorite content into folders you can name, rename, and color-code.

- Organize your resources by subject, class period, month, unit, or whichever system best serves you.

- If you find content you want to use or preview later, rename the lesson and add descriptors in settings so it's easier to refer back to.

Nearpod Programs

Unlock even more powerful content and resources with a subscription to Nearpod Programs*. Intentionally designed solutions targeted to support your strategic needs.

*Nearpod Programs require a license through a school or district account.
