Historical figures

Directions: After learning about different historical Black figures using Flocabulary's lesson videos, read the lyrics below and write the name of the historical figure the lyric is about.

"Once she found freedom, she could have stayed.. but she went back to free more enslaved".

"Oh let us sing, it's what we'll do...until his dream one day comes true".

"This Black female was an American mathematician...Her calculations helped the Apollo 11 space mission"

"Float like a butterfly sting like a bee...Olympian and Heavy Weight Champ born in Kentucky"

"She knows why the caged bird sings, wrote "And Still I Rise" among other things"

"Before me, because of my color it wasn't allowed... but I eventually got to play baseball for a major crowd"

"Her books reached many eyes, people loved to read them...she wrote about the Black experience, love, and freedom"

"Said we should fight for our freedom, by any means necessary...his heritage came first, everything else was secondary"

"She faced a hate-filled crowd, she was changing the rules...Started integration, so everyone could go to school"

"During World War II we took to the skies...first Black military group of men to fly"
